GLOBAL ALLIANCE for PREVENTION of SPINA BIFIDA

The Alliance includes international leaders, organizations, parents and champions dedicated to the PREVENTION and CARE of SPINA BIFIDA.

Among its achievements is the endorsement by the **76th WORLD HEALTH ASSEMBLY RESOLUTION** forwarded to the **WORLD HEALTH ORGANIZATION** to endorse a call for a worldwide prevention of neural tube defects.

PERSONAL GENEROSITY

Many members of **GAPSBiF** made personal contributions to sustain **OMNI-Net Ukraine** Program to provide **free access to urinary catheters** to children with spina bifida, and folic acid to women at elevated risk of having children with neural tube defects. These personal donations are deeply appreciated by the recipient families and all members of **OMNI-Net Programs in Ukraine.**

THANK YOU GAPSBiF!
